

Amplimesh®

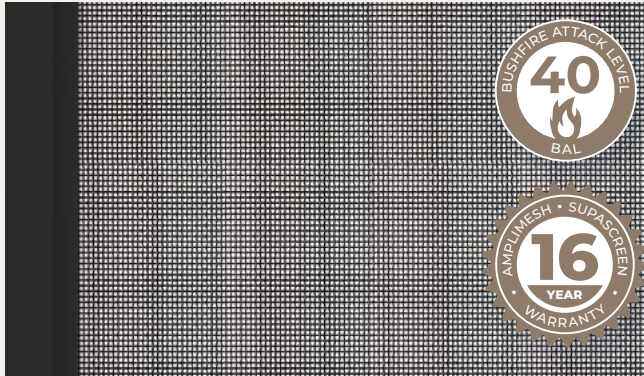

Security Door & Window Screens

Feel Safe Inside.

Our Range

SUPASCREEN®

SupaScreen® uses genuine Meshtec high-tensile 316 Marine Grade Stainless Steel woven into a fine mesh. SupaScreen® security screens use a patented "pressure fit" mesh retaining system to minimise the risk of corrosion while being strong, durable, and discreet, with wide viewing angles.

INTRUDAGUARD®

IntrudaGuard® is made from a single sheet of marine-grade aluminium with a distinguished design, making it corrosion resistant and easy to maintain. IntrudaGuard® screens reduce glare whilst allowing fresh air to flow through your home.

PRIVACYGUARD®

PrivacyGuard® restricted vision mesh is made from aluminium sheet and uses a patented bonding system. It restricts the view for those looking in while allowing you to see what's going on outside.

DISCLAIMER

Restricted vision mesh functions during standard daylight hours when light transmission occurs from either side of the mesh. This mesh is subject to performance limitations at night when illuminated from inside.

DIAMOND GRILLE

The original Amplimesh® solution and one of the most common entry door styles in Australia. An affordable deterrent for would-be intruders.

¹

Insect or security mesh provides an effective barrier to insects larger than the stated aperture of the mesh. Insects smaller than the stated aperture may not be impeded.

²

Bushfire Testing for SupaScreen® (Australian Standard AS3959-2018)
SupaScreen® has been independently tested to meet the requirements for BAL-40 (Bushfire Attack Level). When used in bushfire prone areas rated BAL-FZ SupaScreen® must be used in conjunction with a window that has an FRL of at least -/30/- or in accordance with AS1530.8.2.

LOCAL AMPLIMESH® DEALERS

Our network of Authorised Amplimesh® Dealers extends across Australia, so your security products can be installed by a local, authorised professional who understands your suburb and concerns better than anyone else.

UNBEATABLE WARRANTIES

We provide a 16-year warranty on SupaScreen® and StormGuard®, 10-year warranty on IntrudaGuard® and 7-year warranty on PrivacyGuard®.

We know our security screens can stand the test of time. That's why we offer some of the best warranties on the market.

A SCREEN FOR ANY STYLE

We offer a full selection of hinged, sliding and folding doors, as well as fixed, sliding and exit windows in a range of colours to suit any home.

Pair this with four screen infills to choose from – SupaScreen®, IntrudaGuard®, PrivacyGuard® and Diamond Grille, and you're sure to find a screen that fits both your style and budget.

BACKED BY THE BEST

Amplimesh® is backed by Capral Aluminium, Australia's largest extruder and distributor of aluminium products, who has been in the industry for over 90 years.

We have access to one of Australia's most experienced research and development teams, ensuring our security products are innovative, and tested to Australian Standards.
