FLOWER READING

Is an ancient art that uses symbolism, intuition, and knowledge of the flower to interpret a message for the client. Flowers are a great tool to communicate messages. They were used in many rituals in foreseeing your future in love, health and wealth.

PSYCHIC READING

A psychic reading is a chance to connect and get guidance to help you get clarity you may need. It is a great way to connect to your spirit guides. This is an uplifting experience that will help you connect with your intuition aiding you in your life's journey and experiences.

PSYCHIC MEDIUMSHIP READING

A mediumship reading is a chance to reconnect and communicate with loved ones in spirit and deliver messages from people that have passed over as well as guides and angels. As an evidential medium the loved ones that I connect to can communicate cherished memories that you need to hear.

REIKI THERAPY

Reiki is natural relaxing and safe method of spiritual healing. It treats your body, mind, emotions and spirit as a whole. It is highly effective in promoting your optimum health and wellbeing.
