WHAT IS CROSSRAY

Life outdoors is full of great moments - midweek cook-ups, weekend feasts or smashing out a sausage sizzle. Crossray makes these even better.

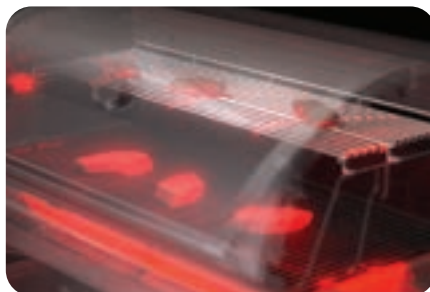

Powered by patented infrared technology, our BBQs deliver powerful, even heat and perfect flavour with ease. From award-winning burners for unmatched control to powerful electric models - every Crossray product is designed for precision, performance, longevity, and effortless use - innovation that truly makes a difference in your life.

INFRARED TECHNOLOGY

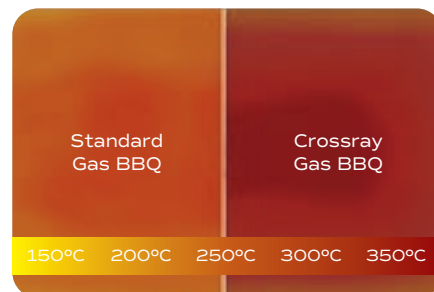

At the heart of every Crossray BBQ is our patented infrared burner technology, delivering a perfect balance of power and control. Unlike traditional flame burners, our infrared system produces even heat across the entire grill surface, eliminating flare-ups and ensuring every meal is cooked to perfection. It's faster, more efficient and creates that authentic BBQ flavour - crisp on the outside, while remaining tender on the inside.

Patented angled infrared burners, provides high but controllable heat

Infrared innovation in action - faster, more consistent heat with less flare-ups

Even heat distribution - Crossray outperforms traditional flame burners

VERSATILITY

Whether you're searing a steak, roasting a chicken, cooking a pizza or embracing low and slow; our BBQs can do it all. And the versatility doesn't end with cooking styles! There are gas and electric BBQ models, multiple cabinetry configurations, benchtop colour choices and more. Create your ideal outdoor setup with Crossray.

QUALITY

Crossray BBQs and outdoor kitchens are built to last. We use durable materials engineered for the harshest climates: stainless steel, zinc-coated powder-coated mild steel construction, and premium sintered stone for superior heat resistance and long-lasting durability. Ensure your outdoor area lasts season after season.

A close-up, angled shot of a gas BBQ grill. In the foreground, several ears of yellow corn on the cob are grilling on a dark, ribbed metal grate, showing charred spots. To the left of the corn are several red and orange bell peppers, some whole and some cut. Above the main grate, a second level of the grill holds several metal skewers with long, cylindrical pieces of meat, likely sausages or kebabs, which are also cooking and showing some charring. The background is blurred, suggesting an outdoor setting. The text "GAS BBQs" is overlaid in the center in a bold, white, sans-serif font.

GAS BBQs

X-Origin Gas BBQ | Inbuilt | TCS4FL

Our original BBQ, stainless steel material with a curved rounded off hood design.

Dimensions (W x D x H): 915 x 505 x 560mm

(800mm H with lid open)

Cooking Area: 5382cm²

XPlor Black BBQ | Inbuilt | TCX4FL-B

Elevated sleek black powder coated stainless steel, with a squared off hood design.

Dimensions (W x D x H): 913 x 530 x 540mm

(772mm H with lid open)

Cooking Area: 5382cm²

XPlor Silver BBQ | Inbuilt | TCX4FL

Robust stainless steel with a squared off hood design.

Dimensions (W x D x H): 913 x 530 x 540mm

(772mm H with lid open)

Cooking Area: 5382cm²

- 4 x High intensity ceramic infrared burners, 13 MJ/hr each (52MJ/hr total)
- Equipped with patented angled infrared burners, Crossray BBQs deliver even heat distribution, reducing flare-ups and ensuring your food cooks evenly
- Uses less energy compared to standard BBQs
- From high-heat searing to slow roasting, the BBQ adapts to a wide range of cooking styles - it's even perfect for pizza
- Robust construction and world-class quality (304 SS with die-cast end panels)

Patented angled infrared burners, reduce flare-ups

Controllable, even heat distribution with temperatures reaching up to 350°C

High-heat searing to slow roasting, adapts to various cooking styles

The 2-piece upper-level cooking area provides 60% more cooking space

X-Origin Gas BBQ | Trolley | TCS4PL

Our original BBQ, stainless steel material with a curved rounded off hood design.

Dimensions (W x D x H): 1685 x 505 x 1255mm

(1495mm H with lid open)

Cooking Area: 5382cm²

XPlor Black BBQ | Trolley | TCX4PL-B

Elevated sleek black powder coated stainless steel, with a squared off hood design.

Dimensions (W x D x H): 1615 X 560 X 1243mm

(1469mm H with lid open) Cooking Area: 5382cm²

Foldable side shelves

XPlor Silver BBQ | Trolley | TCX4PL

Robust stainless steel with a squared off hood design.

Dimensions (W x D x H): 1615 X 560 X 1243mm

(1469mm H with lid open) Cooking Area: 5382cm²

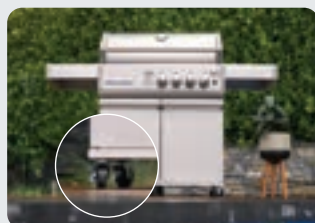

Foldable side shelves

- Lockable castor wheels allow you to move your Crossray BBQ trolley wherever the entertaining is happening
- Space-smart design is perfect for outdoor areas with limited room, while still providing practical bench space with integrated trolley shelves
- XPlor Trolley with foldable side shelves
- Storage cabinet providing ample room for gas bottle or BBQ supplies
- Robust construction and world-class quality (304 SS with die-cast end panels)

Modern design available in both black and stainless steel finish

Lockable castor wheels allow you to move your trolley

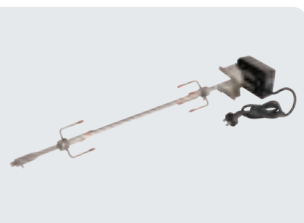

Side shelf is ideal for plating and serving food

Quick assembly - designed for fast and simple setup

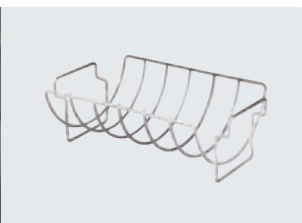

Discover our CROSSRAY gas BBQ accessories - designed to take your cooking to the next level.

The right accessories help you entertain effortlessly, cook creatively, and enjoy every moment with friends and family. From rotisserie kit to hotplate, each accessory is designed to enhance your cooking experience.

Rotisserie Kit | TCS4AC-008

Plugs into a standard power point and comes with 2 prongs that easily secure large cuts of meat.

Roasting Rack | TCEAC-005

The roasting rack is perfectly sized to handle even your largest cuts of meat, with dimensions of 395 x 250 x 130 mm.

Gas BBQ Hotplate | TCS4AC-001

Swap out a standard grill plate for the hotplate (300 x 250 x 10 mm) Perfect for delicate fish or seafood.

Smart Meat Probe | TCS4AC-015

No more guesswork, it ensures your food is never undercooked or overcooked. Easy to use with the BBiQ App.

A stainless steel outdoor grill with four burners and a thermometer, set against a textured wall. The grill is mounted on a dark cabinet. To the left, a glass-fronted refrigerator is visible, containing various bottles. In the foreground, there are green plants.

OUTDOOR KITCHENS

DESIGNED FOR OUTDOOR LIVING

A Crossray outdoor kitchen turns your outdoor area into a true extension of your home - a place to cook, gather, and enjoy every moment outside. Thoughtfully designed and beautifully finished, it blends style with practicality. With generous benchtops, storage solutions, and seamless appliance integration, your outdoor kitchen becomes the heart of your entertaining space. And at the centre of it all is our powerful infrared BBQ, delivering exceptional performance for every occasion.

MODULAR DESIGN MADE EFFORTLESS

We understand that no two outdoor spaces are the same, each is designed with its own style, purpose, and way of entertaining. That's why Crossray offers the flexibility to create your perfect setup, with a choice of outdoor kitchen sizes, modular add-on components, and the option to purchase individual pieces to suit your space and lifestyle.

Available in both gas and electric versions, each kitchen can be configured to suit your cooking preferences and installation requirements. From compact city balconies to expansive backyard entertaining areas, there's a Crossray outdoor kitchen to suit every space.

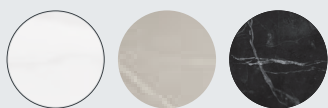

BUILT FOR QUALITY AND LONGEVITY

Every Crossray outdoor kitchen is crafted from high-quality, weather-resistant materials engineered to perform beautifully for years to come. From robust cabinetry to durable engineered stone benchtops, each component is built to withstand the harsh Australian outdoors while maintaining its strength and refined appearance. Designed for everyday use, these kitchens combine long-lasting durability with easy maintenance, ensuring they look as impressive as they perform, season after season.

CROSSRAY YOUR WAY

Create an outdoor kitchen that suits your space and lifestyle. With a range of options and inclusions, it's easy to find the right fit for your outdoor area.

Flat pack for easy DIY assembly

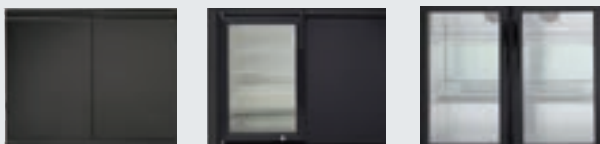

Sintered Stone

Our outdoor kitchens feature 60 mm sintered stone benchtops. An engineered material, which is extremely durable, UV, moisture, heat, scratch and stain resistant. Available in White, Grey and Black

Cabinet, Single or Double Fridge

Your choice of a cabinet that features a centre shelf to maximum your storage, a single door fridge or a wide double door fridge to keep your drinks perfectly chilled.

Gas or Electric BBQ

Infrared elements provide instant high performance. From high-heat searing to slow roasting, adapts to various cooking styles, making it perfect for everything even pizza.

Sink

Available with Premium or Classic outdoor kitchen range.

Adjustable Base

Flooring not completely level? Our kitchens have adjustable bases. Choose to remove your feet, adjust the height or add the castor wheels. Kick-boards are included as standard.

Corrosion Free Cabinet

Kitchen cabinets are corrosion free and have been upgraded to a zinc-coated powder coated mild steel construction. Suitable for exposed and coastal applications.

MAINTENANCE & CLEANING

USING YOUR CROSSRAY FOR THE FIRST TIME

For both eXtreme Electric and Gas BBQs before cooking you will need to season your grill and hotplate (if applicable).

Apply a light coat of high-heat cooking oil (like avocado oil) to the cool, clean the grill and hotplate.

For Gas BBQ

Turn all burners on, close the lid, and let the oil cook into the grill and hotplate for 5 minutes. This process creates a protective coating on the BBQ grills and hotplate, extending their longevity. Ensure to wipe away excess oil once BBQ is cooled.

For Electric BBQ

Switch on the BBQ and set temperature to 300°C

Leave BBQ on high for 5 minutes to make sure, all impurities are burnt off and the grill has absorbed the oil. Switch off the BBQ and ensure to wipe away excess oil once BBQ is cooled.

AFTER EACH USE

- After cooking, turn burners to high for 5 minutes with lid closed to burn off residual grease and food.
- Turn off BBQ and allow it to cool slightly before cleaning.
- Once cooled to a safe to touch temperature, brush grills with Crossray BBQ brush.
- Slide out the grease tray and dispose of any grease/debris. Wipe with paper towel and warm soapy water.
- Clean the exterior with a soft, non-abrasive cloth, warm water, and mild detergent.
- Protect your BBQ between uses with a Crossray weatherproof cover to ensure longevity.

MONTHLY

Clean the inside hood to remove grease and carbon deposits (use a BBQ-safe degreaser if needed)

SEASONAL

- Inspect the gas supply hose for cracks or wear. Spray with soapy water while the gas is on - bubbles indicate a leak. Tighten connections if needed.
- Gently brush burners and remove debris. Ensure burners are dry and free from obstructions before use.
