

# CUSTOMER SATISFACTION

Our Tallow friends say...

"I love your balm! It makes me feel 20 years younger - it's excellent!"

"The results are extraordinary! What a treasure, with such exquisite quality, I would be happy to use Dream Weaver for the rest of my life!"

"It really does give a luxurious feel to the skin! I love Fit for a Queen and I'll never go back to normal moisturisers! It's truly a miracle whip!"

"Instant relief for baby's bottom"

"My décolletage is not crepey anymore!"

"It worked so well, my doctor wants to know what's in that balm..."

"Your tallow balm is magic! It smells so beautiful and feels so LUX!"

"Oh My Lord!"

"The whipped tallow balm is so silky smooth, it's a joy to use."

"I love how my face feels when I wake up in the morning"

"I love how my face feels when I wake up in the morning"

"My forehead is so smooth and I swear my 11's are disappearing!"

"If you want a luxurious experience to add to your nighttime beauty routine, you need to add Fit for a Queen to your regimen! I absolutely love how it makes my skin feel!"

"I've been using your tallow balm on my surgery wound and it has healed beautifully with minimal scarring"

"SOS balm literally fixes everything"

"It worked overnight!"

"My skin has never looked or felt better using Fit for a Queen, it's amazing and helps rid of any blemishes and my skin is glowing"

"I had the worst dry skin from wearing gloves at work and within three days the dryness and flaking was all gone!"

"The results are unbelievable"

"I used to use (leading brand tallow) but found it very greasy and doesn't soak in like your product does. Your tallow goes in so beautifully!"

# TALLOW FACTS AND FAQ'S

## 1. What is tallow?

Our tallow is pure, rendered beef fat from the kidney area of grass-fed, finished cows. Rich in skin-loving nutrients and traditionally used for centuries in skincare.

## 2. Why use tallow?

Tallow mimics your skin's natural oils and delivers bioavailable vitamins A, D, E, and K2. It supports the skin barrier naturally and aligns with corneotherapy - a science-backed approach to maintaining a strong, healthy outer skin layer.

## 3. Is it greasy?

No. Properly rendered and whipped tallow absorbs easily, leaving skin soft and hydrated without clogging pores or feeling heavy.

## 4. Is it good for sensitive skin?

Yes. Tallow helps repair and protect dry, irritated, or compromised skin.

## 5. Tallow vs. seed oils?

Unlike plant oils that oxidize and may disrupt your skin, tallow is stable, non-irritating, and skin-identical, your skin knows exactly what to do with it.

## 6. Does tallow have a scent?

Yes, a subtle, natural, buttery scent. Our gently rendered tallow is pure and pleasant - never overpowering or "meaty."

## 7. Is tallow vegan or cruelty-free?

Tallow is not vegan, but it is sustainable. We source locally from grass-fed cows, using the whole animal to reduce waste. Unlike industrial plant oils, tallow supports regenerative farming and has a lower environmental impact.

## 8. How do I use it?

Massage a small amount onto clean skin. Use daily as a moisturiser, balm, or soothing, skin healing support from head to toe.

## 9. Can it help with eczema or psoriasis?

While we don't make medical claims, many find tallow helpful and relieving for dry, irritated, or inflamed skin.

## 10. How long does it last?

Stored in a cool, dry place, tallow stays fresh for up to a year. Refrigerate in warm, moist environments

# OUR BEST WORK

Our formulas are born of herb lore, botanical healing and aromatherapy. Our ingredients are sourced locally, grown by us, wild harvested, and supports Aussie farmers, growers and families.

## Fit for a Queen

This is your crowning ceremony in a jar! Fit for a Queen is our signature tallow balm, crafted from grass-fed and finished tallow and emulsified with cold pressed jojoba oil. Scented with certified organic essential oils of Ylang Ylang, Lavender, and Frankincense, this luxurious blend delivers more than just skin-deep nourishment. Ylang Ylang elevates mood and promotes emotional balance, Lavender calms the mind and soothes the skin, while Frankincense offers grounding clarity and cellular support. A deeply nourishing, aromatherapeutic balm to remind you of your worth - Queen

## SOS ~ Save Our Skin

This powerhouse healing balm starts with grass-fed and finished tallow, infused with skin-repairing botanicals: Calendula, Yarrow, Plantain, and Lavender. We then combine with certified organic essential oils of Tea Tree, Rosemary, Lavender, and Helichrysum - all chosen for their proven antimicrobial, anti-inflammatory, and regenerative properties. Designed specifically to support skin through flare-ups, cuts, burns, bites, stings, and sunburn, this balm is your go-to for calm, soothed, and visibly healed skin. Also available without essential oils for babies and super sensitive skin - see our product Botanical Babe.

## Dream Weaver

A luxurious blend of certified organic Lavender buds, slowly infused into grass-fed and finished tallow. This balm is then emulsified with golden cold pressed Jojoba oil, Blue Lotus Attar and a touch of Lavender pure organic essential oil. Every ingredient is chosen for its calming, skin-loving properties, working in harmony to soothe the senses, soften the skin, and quiet the mind. Designed to lull you off to a majickal dream filled sleep, this is a nighttime staple for those who cherish beauty sleep in all its forms.

## You're Golden

This is a nutrient-rich balm with damaged and mature skin in mind. We infuse certified organic rosehips, and the precious resins of myrrh and frankincense into grass-fed and finished tallow, then emulsify it smooth. Packed with natural Vitamin C and Boswellic acid, this balm supports collagen production, reduces the appearance of fine lines, calms inflammation, and helps improve skin tone and elasticity. No gimmicks, no fillers — just a golden blend of time-honoured ingredients perfect as a night balm.

We offer Gift Packs and Beauty Bundles suited to your skins needs, and concerns - contact us!

## Botanical Sprays, Toners & Cleansers

We grow, wild-harvest, and source only certified organic botanicals, then carefully distill them to create pure floral and botanical waters as the base of each blend. To these, we add skin-specific certified organic essential oils and a touch of Castile soap for gentle cleansing, and castor oil for supporting your skin. Whether your skin needs calming, brightening, or balancing, these plant-powered mists and waters are crafted to nurture, refresh, and restore — with integrity in every drop. No chemicals, No toxins.

## Animal Based Candles

Grass fed rendered tallow creates our non toxic, non soy, sustainable, candles with no synthetic fragrances, designed to enhance and beautify your non toxic lifestyle. Enjoy the ambience of natural candle light knowing there is no damage to you, your loved ones or the environment. Also available - blended with local beeswax.

## Tallow Soap

Our Natural tallow soap is as honest as it gets. Made with just three base ingredients - grass-fed and finished tallow, lye, and distilled water - our range of soaps is a pure, skin-loving cleanser for even the most sensitive skin. For our scented varieties, we gently infuse botanicals into the tallow and blend in certified organic essential oils to suit different skin needs. These soaps are completely free from seed oils, PUFAs, hormone-disrupting chemicals, and synthetic additives. Just real, nourishing, animal-based skincare that cleanses without compromise.

## Animal Based Lip Care

Our Tallow Based Lip Balms are infused in healing botanicals, blended with local beeswax, with delicious certified organic essential oils to ensure your lips are protected, supported and safe to eat! No parabens, toxins, synthetic fragrances, seed oils or forever chemicals, safe for children too!

# ANIMAL BASED LIFESTYLE IS ANCESTRAL WISDOM

At Carnivore Origins, we believe true wellness begins with returning to what nourished our ancestors, both on the plate and on the skin. Just as we thrive on nutrient-dense animal foods, our skin flourishes with animal-based care like grass-fed tallow. Rich in bioavailable vitamins and skin-compatible fats. Most mainstream skincare is packed with plant-based oils (like seed oils and PUFAs), synthetic fragrances, preservatives, and hormone-disrupting chemicals. These ingredients may smell nice or feel luxurious, but they often strip the skin's barrier, disrupt your body's natural balance, and accelerate aging and inflammation. We take a different path: one that aligns with nature, biology, and ancestral wisdom. Our products are free from PUFAs, hormone disruptors, and anything your great-grandmother wouldn't recognize. By feeding your skin the same way you feed your body - with real, whole, animal-based ingredients - you support healing, resilience, and radiant health from the inside out. Because when food and skincare work in harmony, you don't just glow - you thrive.

## Why Animal-Based Living Belongs on Your Skin

If you wouldn't eat it, why feed it to your skin?

The animal-based lifestyle isn't just about what's on your plate, it's about what touches your body, enters your bloodstream, and supports your biology from the outside in. Your skin is your largest organ, and just like the rest of your body, it thrives on species-specific nourishment. Animal-based skincare - like tallow - is bio-identical to the oils your skin naturally produces. When you nourish your skin with the same integrity as your food, you create harmony between your inner and outer health.

## Skin + Body in Sync

Pairing an animal-based diet with animal-based skincare is the ultimate inside-out approach to wellness

Together, they:

- Reduce inflammation
- Improve skin texture and tone
- Support collagen production naturally
- Calm autoimmune skin conditions
- Heal faster, age slower, and glow deeper

## Whole-Body Wisdom

You are not separate systems. You are one living, breathing, sovereign being. When your food, your skincare, and your values align — everything changes.

This is not a beauty trend. This is a return to how we're meant to live, eat, and thrive.
