# COASTAL LIFTS

## **Barduva EMB100** **The lift that Provides Safe and Convenient Vertical Transportation.**

**The lift is a great solution for people who have difficulty climbing stairs. It is a lightweight and aesthetically pleasing design that will not take up much space in your home. In fact, if you have an elevator in the next floor, it will be almost invisible. The easy and quick installation will help you save money and time, and you can try out your new purchase the next day after the installation work begins. The platform is large enough to accommodate several people.**

### **Lift Advantages:**

**Easy to install**

**Does not require an elevator shaft**

**Very safe**

**Comfortable and stylish**

**If you are looking for a safe and convenient way to move between floors in your home, the EMB100 lift can become an indispensable part of your daily life.**

## **SB200 Electric Screw-Driven Lift**

### **SB200.**

**The platform lift that will enhance your home and make everyday life more enjoyable! The lift is designed for people with disabilities, with a spacious platform that easily accommodates a wheelchair and an accompanying person.**

**An audible signal and Braille-labelled buttons will help people with visual impairments to use the lift independently. The lift is also spacious and economical and can be easily installed in various locations: both inside and outside buildings, between stairs or in an existing shaft and in an open space.**

# Multilift VPL

**The Multilift easily accommodates a wheelchair with a capacity of up to 340 kg. Built with durability in mind, the Multilift is up for the challenge of tough climate conditions. You can count on this lift for reliable performance and ease of operation. An ideal deck lift for home use, the Multilift is approved for certain commercial accessibility projects as well.**

COASTAL LIFTS

## K2 Straight Stairlifts

The K2 Straight Stairlift provides affordable mobility, safety and aging-in-place. It has an optional outdoor package for moderate climates. Built in-charging means the K2 can operate during failure. It has a folded size of 273 mm to keep the unit out of the way when not in use. It has many safety features such as: swivel and lock seat, retractable seat belt and aunty-slip footrest. And it offers a comfortable and durable seat with width-adjustable arms.
