About Us

Copper Baths is a family owned Australian business that takes pride in delivering high quality pure copper baths and sinks across Australia. We work very closely with our manufacturers in making sure each product is designed, created & supplied with attention to detail and in a timely manner.

All our copper baths are durable, have great heat retention, mould resistant & are long lasting. Copper sinks & baths will also patina over time, thereby resulting in a unique finish over time.

All our copper baths & sinks come in various designs and sizes.

We look forward to working with all our customers as a leading quality supplier. If you have a unique design in mind, please contact us to discuss your project in detail.

How are Copper Baths made?

Each copper bath is made by heating copper sheets and then hammering them into shape and size according to the design. One of the benefits of buying a copper bath or sink is the ability to complement almost any type of bathroom décor, from modern, traditional or an antique style.

Our Copper Baths are masterpieces of timeless elegance and artisanal craftsmanship. Each bath is individually handcrafted from solid copper, ensuring not only durability but a unique character in every piece. The surface is expertly hand-hammered by skilled artisans, creating rich textures and a stunning visual appeal that only gets better with time.

Customisable Copper Baths

Handcrafted for timeless elegance and tailored to your taste. Our copper baths can be personalised with custom shaping, embossed patterns, engraved carvings, and unique prints, turning each piece into a work of art. Choose from a variety of finishes and design accents to create a bath that reflects your personality and complements your space. Elegant, functional, and uniquely yours.

Customisable Copper Baths

Customisable Copper Baths

Create a bath that is distinctly yours. Add a touch of storytelling with custom prints, patterns, or motifs that speak to your heritage, aesthetic, or inspiration. With endless possibilities in custom prints, shaping, embossing, and carving, your copper bath becomes a true reflection of your personality — a timeless treasure handcrafted just for you.

Copper Sinks

Our Copper Sinks blend timeless craftsmanship with functional elegance. Each sink is expertly handcrafted from solid copper, with every detail hand-hammered by skilled artisans to create a one-of-a-kind piece full of texture and character. Finished in our popular **Antique Copper** finish, these sinks offer a naturally warm, rustic charm that enhances any kitchen or bathroom space.

Copper Bathroom Bowls

our Copper Bathroom Bowls bring handcrafted beauty to modern bathroom spaces. Each bowl is shaped from solid copper and finished by hand, with intricate hammering and subtle detailing that add character and charm. The rich Antique Copper finish radiates warmth and sophistication, while the natural patina that develops over time enhances the bowl’s unique personality.

Order Information

Delivery & Shipping

We use a leading sensitive freight company to make sure your products will be delivered safely, undamaged & in a timely manner. **Pre-order Lead Times:-12-14 weeks from order.**

In the unlikely event of your product being damaged in transport, we will ensure a swap being organised subject to stock levels. (Please note: Any damages or faults must be reported within 24 hours of delivery)

In the event that the Purchaser does not give written notice of any proposed claim within 24 hours of receipt of delivery, the goods shall be deemed to comply with the Sales Contract and the purchaser shall be bound to accept the goods in accordance with the Terms and Conditions of Trade.

T&C

All pictures shown are for illustration purpose only. Actual product may vary due to product enhancement.

Every genuine copper bath and sink may vary in size. Measurements to be used as a guide only. Best to have the sink on site during the design process so as to reflect the actual measurements of your chosen sink while designing or cutting bench tops or cabinets.

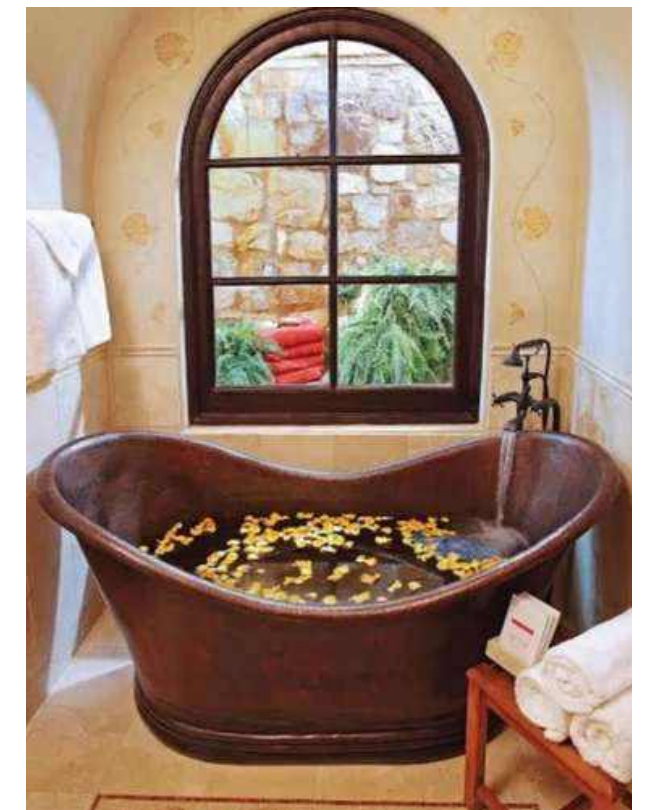

Benefits Of Copper

Copper offers anti-bacterial properties so it requires little in the way of being disinfected and cleaned. Use a light soap to clean, or a microfiber cloth and wipe away dots of moisture to prevent marks on the copper.

Copper scratches heal over time. Enamel baths can scratch easily and once they are scratched, the only way to disguise it is to try and buff it or re-enamel the bath. Scratches made on a copper bath will disappear over time as copper has a living finish.

Copper baths age well. Unlike some bathroom trends – eg coloured tapware, copper baths will always stand the test of time and look good, even if they do darken over time.

Maintenance

Wiping your copper product down with a soft rag and spot checking with soap and water is generally all the cleaning your copper product will ever need. We recommend NOT using anything abrasive for bathing or cleaning, including products like bleach, bristle brushes, and harsh soaps.
