

EasyGas DownUnder™

Award winning design for storing LPG bottles underground and out of sight.

EasyGas DownUnder™ is the first underground home LPG system, providing choice for builders and home owners seeking an alternative to LPG bottles on the side of homes.

No matter where you're building, ELGAS delivers hassle-free LPG, with local experts available to support you at any stage of the project.

- ✓ LPG is a reliable energy choice, wherever you are building
- ✓ LPG bottles are out of sight in a safe and accessible location
- ✓ LPG is unaffected by legislation banning new (mains) natural gas connections
- ✓ Remote monitoring ensures you will never run out of LPG
- ✓ The fire resistant lid is suitable for bush fire prone areas

Contact your local team or call **131 161** today for more information
