infrared sauna

We are excited to introduce to you our exclusive, space-saving and energy efficient 'EXPAND' infrared sauna. This 'one person' sauna is designed specifically for smaller, smarter living areas where maximisation of space is priority. Measuring 850mmW/580mmD/1920mmH, this cleverly designed sauna extends with ease to almost twice its depth (1070mm) when in use, providing an incredible infrared sauna experience, using minimal floor space. Featuring Canadian Hemlock timber and superior moisture-proof componentary, our extensive industry experience means we cover not only the sale, but also the delivery, installation and servicing of all our 'EXPAND' infrared saunas. For all enquiries please contact Peter
