

**I'M AN ARTIST, NOT A TRADER**

**EL PATRÓN RESIN**

# Meet the Artist

*Sam Serio's story began at 16 drawn to street art, design, and the discipline of creating something original by hand.*

That same creative drive now powers El Patron Resin: bespoke resin flooring and surfaces crafted as feature pieces, finished with precision, and built to perform in real life.

***Redefining luxury spaces with uncompromising quality—transforming visions into reality since 2020.***

Backed by deep hands-on experience across both the art world and specialised epoxy systems, every project is managed end-to-end with clear communication, meticulous preparation, and a premium handover..

*“A mission built on refinement, craftsmanship, and uncompromising detail.”*

Sam Serio • The Artist • El Patron Resin

## Master Craftmanship

Meticulous workmanship and detail-led finishing

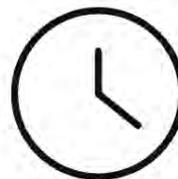

## Budget Integrity
