DISTRESSED BUILDING SITE & BUILDER RED FLAGS

Spot the warning signs early. Protect your investment. Look for these common indicators of a distressed project or builder before it's too late.

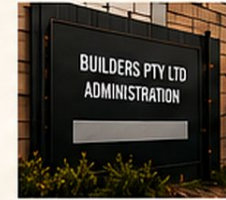

1 UNFINISHED OR ABANDONED WORK

- Work stopped for an extended period
- No visible progress on site
- Materials left exposed to weather

2 FINANCIAL OR ADMINISTRATION ISSUES

- Builder unresponsive or hard to contact
- Frequent schedule or contract alterations
- Negative reviews or complaints online

3 POOR SITE MANAGEMENT

- Site is untidy, unsafe or unsecured
- Rubbish and building waste scattered
- No fencing, signage or safety measures

ADDITIONAL RED FLAGS TO WATCH FOR

Visible structural defects
Cracks in walls, slabs or foundations

Signs of water damage
Stains, mould or moisture in walls and ceilings

Unsafe or non-compliant electrical
Exposed wiring, loose connections, missing cable support

No workers on site
Consistently no workers or trades present
