

ABOUT US

At JG Alternative Healthcare, we believe that every individual has the innate ability to heal from within.

Our purpose is to help you unlock that potential by supporting your unique journey with the use of Traditional Chinese Medicine (TCM).

The beauty of our work is that it is a non-invasive and non-toxic approach to your health and wellbeing.

MEET YOUR PRACTITIONER

Bachelor of Applied Science (Chinese Medicine)
Bachelor of Health Science

Dr Jesse Georgiadis has built a strong foundation of TCM over the years. He embarked on a 4 month internship in China as part of his RMIT qualifications and has been working for several years as a TCM practitioner.

Having extensive TCM experience coupled with his martial arts background, Jesse understands the importance of balance, mobility and recovery for the body.

WHAT WE TREAT

Whether you're seeking support for muscle tension, fertility or the effects of everyday stress, our treatments are tailored to your individual needs and health goals.

Dr Jesse takes the time to understand your concerns, providing personalised treatments designed specifically for you.

If you're looking for a natural approach to your health and wellbeing, explore the conditions we commonly support below and discover how JG Alternative Healthcare can help.

OUR SERVICES

The TCM techniques we offer help restore balance to the life force energy "Qi" in the body. TCM supports your natural healing processes without the use of any harsh chemicals or toxins. Every treatment plan is individualised, ensuring your care reflects your unique circumstances rather than a one-size-fits-all approach.

Our services include:

ACUPUNCTURE

CUPPING

HERBAL MEDICINE

GUASHA
