BEAUTIFUL SHUTTERS, FITTED FAST

Infinity
SHUTTERS

INFINITY SHUTTERS™ (POLYMER)

Certified Australian Made, our Infinity Shutters™ are custom-made and ready for installation within 4 weeks*. Constructed with reinforced aluminium inserts and polymer foam, the rails, stiles, and louvres of our shutters are all designed to resist cracking, chipping, splitting, or warping. This robust construction sets Infinity Shutters™ apart from competing products, showcasing its superior strength and quality.

In addition to durability, Infinity Shutters™ offer several other benefits. They are hypo-allergenic and recyclable, providing a healthier and more sustainable choice for your home. They also offer superior insulation compared to timber, helping to maintain a comfortable temperature in your home. Furthermore, they are fire-retardant and non-carcinogenic.

With a range of fitting options, Infinity Shutters™ can be fixed, hinged, sliding, bi-fold, bi-hinged, or pivot-hinged, offering flexibility to suit your specific needs.

SECURITY SCREENS AT UNBEATABLE PRICES

SUPA SHIELD™ SECURITY SCREENS

Supa Shield™ represents K&B's revolutionary approach to security screen solutions. At the core of our system is advanced SP83 mesh - a next-gen hybrid that combines the strength of 304 stainless steel with the superior corrosion resistance of 316 stainless steel. This state-of-the-art mesh offers outstanding durability, especially in coastal areas, and its increased rigidity makes it ideal for larger windows and doors.

SP83 mesh complies with BAL 40 and is held securely within a robust frame using our proven 'Hook-Clamp' procedure, ensuring Supa Shield™ stands as one of the strongest, most durable, and stylish security screen products on the market. Ready for installation within 3 weeks*, Supa Shield™ reflects our mission to continuously innovate and provide our customers with the very best solutions available.

Designed and manufactured in Australia, Supa Shield™ also features a layer of rubber insulation to proactively prevent corrosion, further enhancing its lifespan. Available in 15 standard colours, Supa Shield™ products comply with AS5039-2008 standards.

Unlike many competitors, all Supa Shield™ products are installed exclusively by our experienced K&B team, ensuring every screen is fitted precisely to the AS5039-2008 standards for maximum quality and peace of mind.

INSTALLATION:
3 Weeks

DIAMOND GRILLE SAFETY SCREENS / COLONIAL CAST PANELS

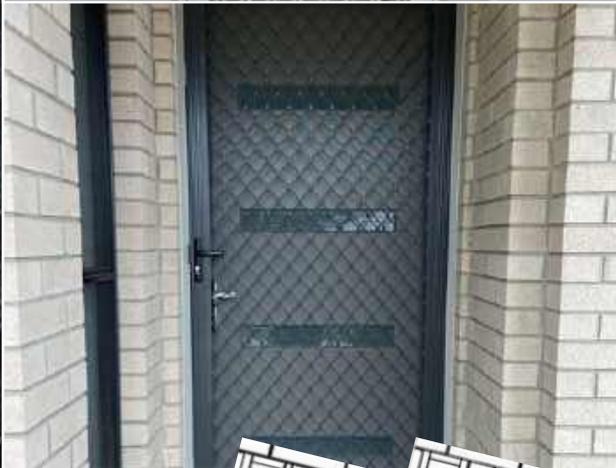

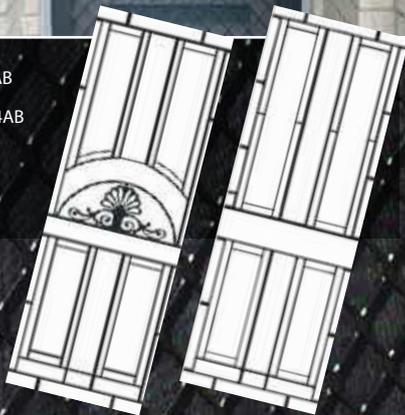

Image Left: SP14AB

Image Right: SP34AB

DIAMOND GRILLE SAFETY SCREENS

Diamond Grille doors and windows offer a durable solution that serves as a strong visual and physical deterrent to potential intruders.

Each door crafted by K&B features three hinges for enhanced security, is riveted to the frame, and constructed with solid aluminium corner stakes to bolster the door's resistance to heavy impacts.

COLONIAL CAST PANELS

We also offer Colonial Cast Panels. Colonial Cast Panels are manufactured from cast aluminium. A wide selection of designs and powder-coat colours are available.

INSECT SCREENS / PRIVACY SCREENS

INSECT SCREENS

K&B offers professional screening solutions for any area, regardless of shape or size, including doors, windows, and patio screened enclosures.

These low-maintenance screens effectively prevent insects, dust, and debris from entering your home or business.

Our fly screens can be hinged, sliding, or fixed, and can be fitted with additional features such as portholes or pet doors.

MESH OPTIONS:

Standard Fibreglass

Paw Proof

Fine Screen

BAL 29 / BAL 40 compliant fly screen mesh options are available on request.

PRIVACY SCREENS

We can also do fixed horizontal slat or fixed elliptical blade privacy screens.
