

Made From Leaves

Take the Forest With You!

Every piece from Karuna Dawn begins on the forest floor, with fallen leaves.

Carry the energy of the forest with you. This is your invitation to ground, protect and nurture your mind, body and spirit.

Choosing Karuna Dawn is your conscious act to protect the earth, support rural artisan communities who handcraft these pieces, and create a daily practice of living gently with yourself and the environment.

JOURNALS

Each page becomes a sanctuary where thoughts are honoured, gratitude is cultivated, and self-awareness deepens.

Whether used for daily gratitude, intention-setting, or mindful reflection, they become powerful tools for self-connection and transformation

CRYSTAL/MALA POUCHES

Our Pouches are vessels for energy and intention. Each pouch can be used to support a specific emotional or energetic state whether it's grounding, clarity, love, protection, or calm. Carry the crystals throughout the day and stay connected to the energy you wish to embody.

LEAF LEATHER BAGS

You carry enough in life; your bag shouldn't be one of those burdens. Our Leaf Leather bags are intentionally lightweight.

Free your shoulders from heaviness and move lightly through the world.

Our bags embody what premium materials should mean today: earth-kind, artisan-made, and long lasting.

COSMETIC SETS

Our cosmetic bags keep your rituals beautifully organised, so getting ready feels calm, intentional and clutter-free instead of chaotic. These pieces not only offer functionality and beauty, but also tell a story of ethical craftsmanship and conscious production.
