

Australia's leading supplier of container doors, security doors, emergency exits & PA doors

We supply competitively priced steel doors and fire exit doors with unrivalled quality for the container, commercial, industrial & residential sectors

Container Doors

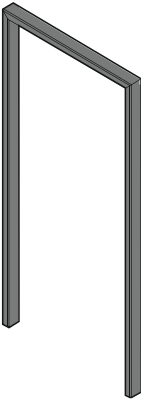

Our container doors have been designed specifically for this industry, offering a range of solutions for any kind of container conversion, temporary buildings and more. They all have a fully welded construction and sealed joints, finished in a high quality polyester powder coat finish or wet sprayed with a grey primer finish, ready for final coat on-site.

Featuring either our HOOPLY™ multi point locking system, or flush lock handles, they have thermal and acoustic insulation along with weather seals included as standard.

Goal Post Frames

50 x 100mm / 2x4" steel box section,
2.5mm mild steel cold formed
rectangular hollow section

Door Sets & Styles

Box Frame Container Door (Weld in)

Air Vent Doors

Our Steel Air Vent Doors are expertly designed to meet the needs of spaces requiring a combination of airflow, ventilation, and security. Suitable for both internal and external applications, they are an ideal solution for plant rooms, boiler rooms, server rooms, bin stores, and various other industrial or commercial environments.

These doors provide exceptional ventilation, offering up to 50% airflow to regulate temperatures efficiently in areas prone to overheating. The purpose-built air relief grilles are designed to

promote effective airflow while maintaining security against unauthorised access.

Built for strength and reliability, these doors are fitted with our industry-leading 19-point locking system, making them some of the strongest air vent doors available in Australia. They are supplied pre-hung on robust frames, with all fixings and hardware included, ensuring quick and hassle-free installation.
