

Homeowner? First-time building or renovating?

Learn how to confidently navigate the building and renovation process before you start.

LET'S LEARN BUILDING is a 6-part self-paced online masterclass that gives you the knowledge to make informed decisions, avoid costly mistakes, and manage your project with confidence. 

Course Outline

MODULE 1: Getting started - what do I need?

MODULE 2: Reviewing documents & selecting the right builder

MODULE 3: Contracts

MODULE 4: Building permit ready & getting ready to commence construction

MODULE 5: Construction begins

MODULE 6: Handover

By the end of the course,
you'll be better equipped to:

Understand the key stages of the building process

Know what to look for before signing with a builder

Feel more confident reviewing quotes and contracts

Safeguard your decisions throughout your build

Avoid common and costly mistakes homeowners make

YOUR BUILDER KNOWS THE PROCESS. DO YOU?

Let's Learn Building's framework was created from real on-site experience and shaped by years working within the industry.
