“

Luxe Ceramics are the best.

Professional, pro-active and supportive.

From the original selection process, to all the amendments and our 'change of mind' they take it all their stride - not to mention the after sales service and going above and beyond! We can't recommend them highly enough.

David & Margaret
Aubin Grove

From the moment I stepped into the showroom I was impressed with the service, knowledge & capability of the Luxe Ceramics team.

The project wasn't the most straightforward in terms of design, yet nothing was a problem in bringing the vision to life. Once we started on site the project management was second to none, with regular updates and check ins.

The trades were all amazing, and delivered top quality workmanship.
