

# The importance of MAXEdge® perimeter insulation

As a minimum all our products feature our patented MAXEdge perimeter insulation. The following two images are taken from a thermal imaging camera, showing heat loss in a typical residential home.

## NO MAXEdge Perimeter Insulation

### OUTCOME

- Major heat loss through edge of the slab (shown in yellow)
- Negative impact on wall insulation resulting in reduction in wall performance

## WITH MAXEdge Perimeter Insulation

### OUTCOME

- The MAXEdge perimeter insulation prevents 80% of slab heat loss
- Wall insulation performs up-to 30-40% better improving overall house energy efficiency
