HEMP IN JOJOBA

Use as part of your daily skin care routine to nourish, help firm, and protect the top layer of skin, keeping your skin supple and hydrated.

"My husband gifted me the 'Jojoba Hemp oil' to massage onto my pregnant belly. I'd tried most of the available (natural) oils and creams on the market and haven't found one that worked. All I can say is WOW!"

KATIE

This product works! ... I experience dry, patchy and sensitised skin during the winter. I used Hempjojoba oil daily from the beginning of this winter and my skin has been completely smooth and nourished. No skin issues whatsoever. I've used straight jojoba oils in the past and they're too heavy and have irritated my skin. This product feels like magic in a bottle and I'm officially addicted.
