PNS

KorBand

Application accessory for back, abs and limbs

The multi-functional KorBand is designed to work seamlessly with your NuroKor BodySystem device to relieve back and limb pain.

It offers an alternative to adhesive gel pads, covers a larger surface area and can enhance pain relief treatment, improve recovery and assist muscle performance. The KorBand can pair with both the mibody and mitouch device.

KorGlov

Application gloves accessory for hands.

The KorGlove accessory works seamlessly with the NuroKor BodySystem device range. It can help ease pain, enhance strength and improve function of the entire hand and wrist.

The KorGlov is woven with silver thread to ensure complete bio conductivity and made from a lightweight, stretch comfort material to fit hands of most sizes. Designed to be light-weight, the accessory is ideal for home, work, sport and travel use.

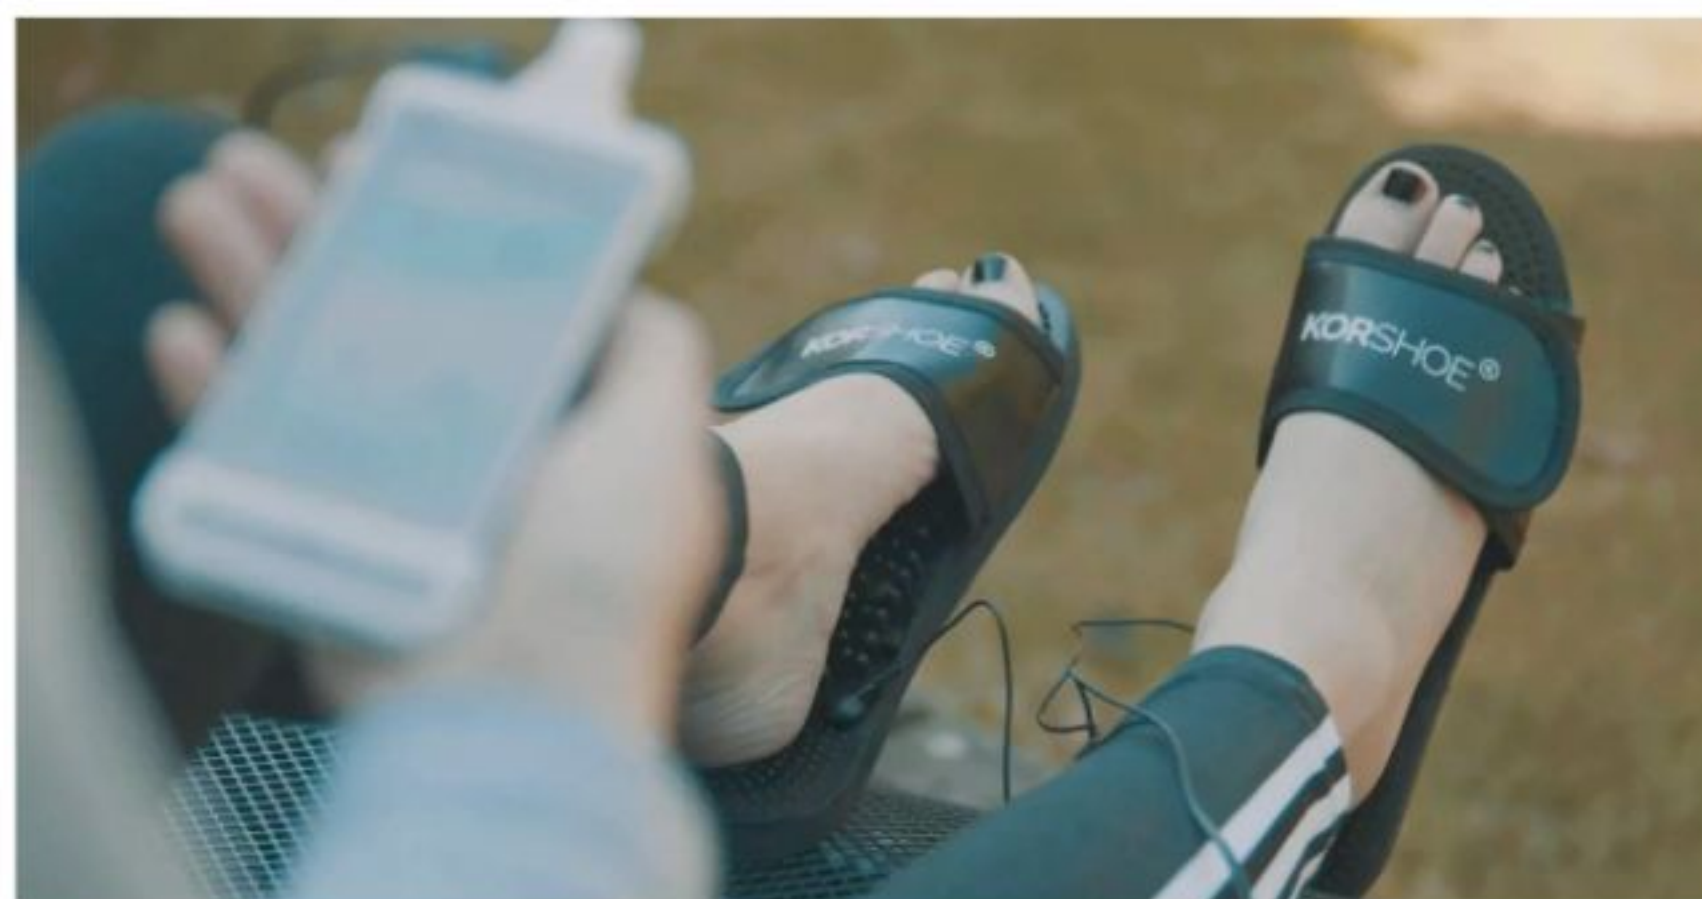

KorShoe

Application accessory for your feet and legs

The KorShoe accessory pairs with the NuroKor mitouch device to enhance management of pain in the ankles, heels, legs and feet.

The KorShoe can help to improve circulation, stimulate muscles and to ease tired, painful muscles or sore feet. It is also ideal for use in both pre and post stages of workout.
