*The most technically advanced system in Australia*

# PAAL DESIGN FLEXIBILITY

## And yes - you can change our plans!

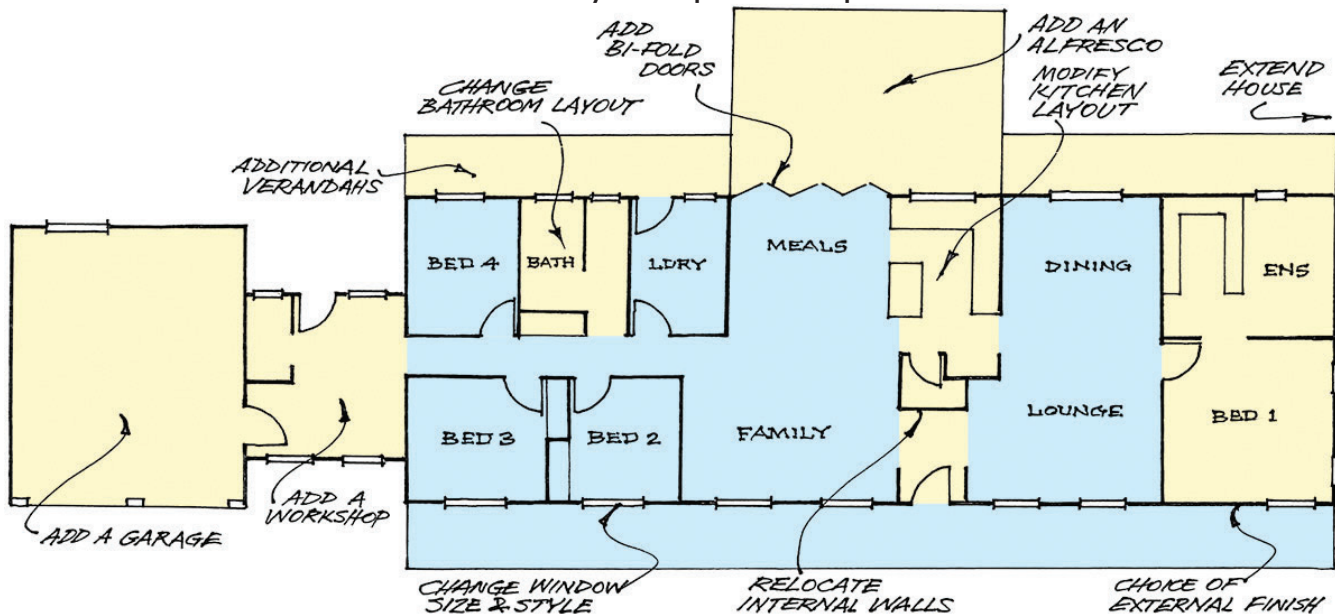

Your new home is all about you, and everyone's requirements are different. For this reason, we give you the freedom of choosing - and building - the features of your home.

We offer a range of design options, so you can add your own special touches.

You can, for instance, add a garage or an alfresco dining area, or a T-shaped extension.

We also offer endless possibilities for redesigning the internal layout of your home.

Contact us today to explore the possibilities!
