

PIPERS RIDGE
LIVING LEGACY FOREST

A LEGACY THAT LIVES ON FOREVER

A SACRED SPACE WHERE LIFE RETURNS TO NATURE,
AND MEMORIES GROW FOR GENERATIONS.

IT IS THROUGH NATURE
THAT WE EXPERIENCE
THE SANCTITY AND
TIMELESS VALUE OF LIFE.

OUR MISSION

At Pipers Ridge Living Legacy Forest, we believe our time here is sacred. Our mission is to provide a place of permanent beauty where your loved one's energy is transformed into the growth of a Living Legacy Tree, anchoring their legacy to our planet.

OUR STORY

A LEGACY OF LIGHT

THE FOUNDERS ADRIAN & DEB

We are Adrian and Deb Chen — parents, founders, and the family behind Pipers Ridge. Our journey into this work didn't begin with a business plan. It began with a loss that changed everything — and a conviction that something beautiful could grow from it.

FROM TRAGEDY TO TRANSFORMATION

On 25th January 2024 our lives were changed forever by the loss of our 10-year-old daughter, Tegan Ariel Chen. Out of the profound depth of that grief, a vision was born: to create a sanctuary that transforms the darkness of loss into hope, healing, and light.

THE LIVING CONNECTION

Years before Tegan's passing, Adrian was involved with Living Legacy, moved by their mission to return life to nature. We never imagined how deep this personal connection would become.

In the days following our loss, the act of dedicating a tree to Tegan's memory brought a sense of peace that traditional memorials could not. It made sense of the heartbreak — giving her love for life a place to grow.

A NEW CHAPTER AT PIPERS RIDGE LIVING LEGACY FOREST

On July 25th, 2025 — the exact 18-month anniversary of Tegan's crossing — we settled on this sacred land in Pipers Ridge. With its sprawling views and flowing creeks, Pipers Ridge is the first Living Legacy site in New South Wales.

TEGAN'S LOVE FOR LIFE
IS THE HEARTBEAT OF
THIS SANCTUARY.
WE INVITE YOU TO FIND
HOPE AND HEALING HERE.

THE LIVING LEGACY PROMISE

MORE THAN A MEMORIAL, A LIVING CONNECTION

WHETHER YOU ARE HONOURING A LEGACY, CELEBRATING A NEW BEGINNING,
OR SEEKING RENEWAL, OUR SANCTUARY IS DESIGNED TO BE PART OF YOUR
FAMILY'S STORY FOR GENERATIONS.

A LIVING CONNECTION

Watch your loved one's tree flourish and change with the seasons — a vibrant, breathing representation of a life's journey. Their presence doesn't end. It grows.

PATENTED ASH TREATMENT

Our patented process transforms cremated ashes into life-giving nutrients. You're not choosing a memorial. You're creating a living legacy.

CARE THAT CONTINUES

Your journey doesn't end at the ceremony — and neither does ours. From your first visit through to ongoing healing programmes, guided walks, and seasonal gatherings, we walk alongside you. Your tree is cared for in perpetuity. So is your family.

A PLACE TO RETURN TO

This is not a place you visit once. It is a place you come back to — season after season, year after year. Each return deepens the connection. Your Living Legacy Tree grows, and so does your relationship with it.

CREATE NEW, BEAUTIFUL MEMORIES

Walk this land together. Lie in the grass and breathe the mountain air. Visit anytime with family and friends for picnics, quiet reflection, or sunset gatherings.

HOWEVER YOU COME TO THIS PLACE, WE'RE HERE

A LIVING LEGACY TREE MEETS YOU WHERE YOU ARE

PLANNING AHEAD

Design a legacy that reflects who you are — not what's the done thing. Choose your tree, gather beneath it in your lifetime, and know that what you plant today will hold your family's story long after you're gone.

FROM AVOIDANCE TO AGENCY

NAVIGATING LOSS RIGHT NOW

You don't have to figure this out on your own. We guide you through what matters with clarity, care, and confidence — even in the hardest moments.

FROM OVERWHELM TO GUIDANCE

FINDING YOUR WAY AFTER

Stay connected in ways that feel real — through places, rituals, and experiences that keep your loved one's presence part of your life.

FROM DISCONNECTION TO CONTINUATION

OUR SANCTUARY OF HEALING

LIFE AFTER LIFE, A PLACE WHERE LIFE CONTINUES

Pipers Ridge sits on Wiradjuri Country — land of deep story, ceremony, and connection. We honour that continuum. More than a garden, it is a sanctuary where the forest holds what words cannot. Whether drawn to native Australian forest or a curated botanical setting, Pipers Ridge offers two distinct spaces for your Living Legacy Tree.

THE WOLLEMI FOREST

ANCIENT, NATIVE, ETERNAL
7-HECTARE NATIVE REFORESTATION

Secure a place in history by choosing a critically endangered Wollemi Pine as your Living Legacy Tree. Once thought extinct for millions of years, these prehistoric trees are a powerful symbol of resilience and the timelessness of life. Our 7-hectare native reforestation project features these ancient pines alongside supporting native Australian canopy species, creating a sanctuary that invites you back to nature in its purest form.

THE BOTANICAL GARDEN

VIBRANCY IN EVERY SEASON
7-HECTARE CURATED LANDSCAPE

For those who find peace in the artistry of a garden, our Botanical Sanctuary showcases exotic species from around the world. These Living Legacy Trees offer a beautiful symbiosis of colour that mirrors life's journey — from delicate spring blossoms to the rich golds of autumn.

PET MEMORIALS

FAMILY STAYS TOGETHER

We believe the bond with our animal companions is sacred. Pet memorials are available — whether alongside your family's Living Legacy Tree or in a dedicated space within the sanctuary. Talk to us about the right option for your companion.

A SANCTUARY DESIGNED FOR HEALING

Every journey at Pipers Ridge unfolds within a landscape shaped by evidence-based grief restoration and nature-based therapy. From sanctuary pathways to forest canopy, each space is designed so the environment itself supports your healing — not as an add-on, but integral to the experience.

HOW A LIVING LEGACY WORKS

FROM DUST TO LIFE. A GUIDED JOURNEY, NOT A PROCESS

You don't have to figure this out on your own. We walk alongside you at every step — from choosing your Living Legacy Tree to the ceremony and beyond.

1. DESIGN YOUR LEGACY

Start a memorial for a loved one, pre-plan your own, or celebrate a milestone. We help you think through what matters — not what's been done — so what's left behind actually feels like you.

2. CHOOSE YOUR LIVING LEGACY TREE

Walk the land with our team and find the tree and location that speaks to you — whether it's a critically endangered Wollemi Pine or a flowering exotic. This is your tree. Your place. Your decision — guided, not rushed.

3. THE ASH TREATMENT

Our patented Living Legacy process transforms cremated ashes into life-giving nutrients. The treatment neutralises the high pH and salt levels that would otherwise harm plant life, creating a nourishing foundation that allows the tree to absorb and embody your loved one's presence.

4. CEREMONY & CONTINUATION

Gather your family and friends for a Celebration of Life ceremony. Honour a life lived whilst embracing a new beginning. And then come back. And back again. Because this is not a moment. It's a continuation.

THE SCIENCE OF TRANSFORMATION

HOW LOSS BECOMES LIFE-GIVING GROWTH

Most people don't realise that untreated cremated ashes are naturally high in alkaline salts and have a pH level that can be harmful to plant life — whether scattered, buried, or kept in urns. Our patented three-stage process ensures that your return to the earth nourishes rather than damages the ecosystem.

1. NEUTRALISATION

We apply our proprietary Living Legacy liquid to neutralise the high alkaline and salt levels in human or pet ashes. This creates a safe, pH-balanced foundation that is gentle on delicate root systems.

2. NUTRIENT RELEASE

Through this scientific treatment, the ashes are transformed into bio-available nutrients, specifically rich in Nitrogen and Potassium — the essential building blocks required for a tree to thrive.

3. THE LIVING CONNECTION

Once planted, these nutrients are absorbed by the tree's roots. Over time, the molecules literally become part of the tree's physical structure — the bark, the leaves, and the oxygen it breathes out.

Your loved one's ashes becomes a living, breathing part of the forest.

CARE THAT CONTINUES

HEALING EXPERIENCES AT PIPERS RIDGE

However you come to this place — through loss, through planning, or simply seeking healing — our experiences are designed to support your journey. Dedicate a tree, join a retreat, walk the forest, gather with family. Every path leads here.

HEALING & WELLNESS PROGRAMMES

Grief retreats, day programmes, guided grief journeys, and restorative wellness experiences — all designed to support your healing in the sanctuary landscape.

GUIDED SANCTUARY WALKS

Walk the sanctuary with trained facilitators. Learn about the Wollemi Pines, the native species, and the vision behind Pipers Ridge — while finding restoration and connection among the trees.

CEREMONIES & GATHERINGS

Mark the moments that matter — births, anniversaries, remembrance days — with a ceremony in the sanctuary. Or gather with family and friends for a curated picnic or high tea among the trees.

SEASONAL CEREMONIES

Four ceremonies marking the turning of the year — Bloom Festival (spring), Lantern Lighting (summer), Healing Walks (autumn), Fire & Feasting (winter).

SANCTUARY ACCOMMODATION

Dedicated accommodation just a short drive from Pipers Ridge, offered in collaboration with Redgate. Ideal for families visiting their Living Legacy Tree or attending retreat programmes.

BEGIN YOUR JOURNEY

EVERY PATH LEADS HERE

You don't have to figure this out on your own. Whether you're ready to choose your tree, want to explore our healing programmes, or simply want to learn more, we're here to walk alongside you.

VISIT THE SANCTUARY

Walk the land, breathe the mountain air, and find the tree and location that speaks to you. We'll guide you through the forest and gardens at your own pace. Contact us to arrange your visit.

TALK TO OUR TEAM

Have questions? Want to understand your options? Book a call or send us an enquiry. We'll listen to what matters to you and help you design the right journey for your family.

PRE-PLAN YOUR LEGACY

Many families choose their Living Legacy Tree now — to gather beneath its canopy during their lifetime, and to know that what they plant today will hold their family's story long after they're gone.

A SACRED SPACE WHERE LIFE RETURNS TO NATURE,
AND MEMORIES GROW FOR GENERATIONS TO COME.
