Founder Story

My intentions are simple... to create the most minimalist yet impactful drink on the market, backed by science, natural, and of course it would taste great.

It took me 15 years to learn that time waits for no one, so here we are.

Why would I do this? Because I am being the change that I want to see. I have used Terpenes for over two decades, so I created a drink.

My vision was to create a product that would support others like me: those striving for success without compromising their health.

PURUS offers a clean, natural boost without the jitters, crash, or health risks.

It's not just a drink — it's a commitment to balance and well-being, to a life of freedom.

A drink for your mind and body

TERPENES
ONE MAGIC INGREDIENT

Terpenes are oil based molecules from plants that give plants their distinct smell.

So, are they nootropics or adaptogens? Good news is that they are both, and they are the purest natural form.

We are different! We've made a conscious choice to leave out any ingredients or additives which may have negative long term health impacts. Unlike other health companies, our values are as pure as our products.

Nootropic:
supports your mind

Adaptogen:
supports body balance

PURUS IS LIMITLESS.
DRINK AS MUCH AS YOU LIKE.
