HAWKESBURY RIVER & BROOKLYN

Your wellbeing isn't a luxury, it's a necessity!

Confidential & non-judgemental support to help you journey through life's ups and downs!

Hypnotherapy is a therapeutic process that works with the subconscious mind to support meaningful behavioural and emotional change. Hypnosis is a naturally occurring state of focused attention — *similar to becoming absorbed in a book or daydream* — where the mind is more receptive to new perspectives, insights and adaptive responses. Sessions are collaborative and client led. You will remain aware and in control throughout the process — hypnosis is not sleep, and you cannot be made to do or say anything against your will. All sessions are tailored to support sustainable, meaningful change aligned with your unique values, goals and preferences.

HYPNOTHERAPY CAN HELP YOU WITH:

Pain Reduction
Weight Management
Sleep Support
Insomnia
Burnout
Overwhelm
Low Mood
Feeling Stuck
