JOHNNY'S WORK

Through decades of hands-on healing work and thousands of sessions with people around the world, Johnny has been shown patterns and connections that most people never realise exist. Working closely with people facing chronic illness, physical pain, emotional trauma, spiritual disconnection and conditions many believed they would never overcome, he has repeatedly seen how deeply the soul can affect the physical body, mind and overall wellbeing.

Through this live experience, attendees will receive energetic clearing work, spiritual insight and a deeper understanding of how healing truly works. At its core, healing is the natural role of the soul and every person has the ability to reconnect and begin changing their life from within.

PRIVATE 1:1 HEALING AVAILABLE

We work privately with clients across Melbourne and around the world through structured 1:1 healing programs and distance healings via Zoom. For intensive cases, Johnny will travel directly to clients within Australia and internationally.

THE SOUL & HEALING

THE BODY REMEMBERS WHAT THE SOUL HAS CARRIED

Physical injury, emotional trauma, grief and difficult life events from past lifetimes can leave imprinted wounds that continue affecting a person long after the event itself has passed.

This is why many scans and tests may not fully explain what is happening or provide real answers, because the issue is sitting within the energetic layer.

This is the level we will work on to create real change to your health and life.

WHY CLEARING MATTERS

Many people try to heal while still carrying years of energetic buildup, spiritual interference, unresolved trauma and soul wounds. After trying countless treatments, practitioners, supplements and new modalities with little lasting change, they are left feeling exhausted and still searching for real relief.

Johnny will work directly with attendees to help clear these deeper energetic burdens and support the body's natural ability to heal. This is how he is able to create those big shifts he is known for.

This live energetic group clearing forms a central part of this course and is the reason the event must be attended in person.
