

Premium fibreglass pools. Made simple.

Choose from our range of Australian-made fibreglass plunge pools, designed to make adding a pool to your home simpler, faster and more flexible. From compact courtyards and new builds to larger outdoor entertaining areas, our range offers options to suit different spaces, lifestyles and installation requirements.

WHY CHOOSE A PLUNGE POOL WAREHOUSE POOL?

Australian Made

We have contracted one of Australia's leading pool manufacturers, Compass Pools, to produce our exclusive range of premium fibreglass plunge pools. With over 40 years of Australian pool-manufacturing experience and more than 60,000 pools produced nationwide, you can have complete confidence in the quality of every pool we supply.

Greater Cost Control and Savings

Know the cost of your pool package upfront, making it easier to plan and manage your overall project budget. Lightweight fibreglass plunge pools also reduce crane hire and installation costs compared with heavier alternatives.

Simple Supply Process

Select your pool, colour, equipment and optional extras. We'll help you understand what is required for your project.

Flexible Installation

Choose from semi-inground, above-ground and elevated installation options, with pool sizes designed for a variety of spaces.

Faster Project Turnaround

Streamline your installation and reduce on-site trades with our pre-plumbed packages. For an even faster turnaround, ask us about our available stock pools, ready for rapid dispatch.

Effortless Upkeep

Engineered for lasting durability, our premium fibreglass pools feature a smooth, non-abrasive gel-coat finish that helps resist algae and staining. The easy-care surface means less cleaning, simpler maintenance and reduced reliance on pool chemicals.

The dimensions and dry weights listed above include our equipment support structure and approximately 50kg of pre-plumbed equipment. If you are purchasing our freestanding pool as is, without pre-plumbed equipment, your pool will be lighter and shorter in length. Please contact our team for exact bare-shell specifications to assist with your site planning.
