Building the Future with Quality Stones

■ Who We Are

As Melbourne's premier sintered stone specialist, we transform homes through precision-engineered surfaces. Our "Building the Future with Quality" philosophy drives every project - from luxury kitchens to bathrooms.

■ Sintered Stone Ranges

NON-FULL-BODY Range

Surface-printed design that preserves the aesthetic appeal of natural stone. Inspired by nature, featuring elegant surface veining with refined visual depth.

FULL-BODY RANGE

Veining runs seamlessly from surface to core, replicating the unified beauty of real stone. Offers unlimited cutting flexibility—continuous veining remains intact throughout fabrication, delivering authentic natural stone aesthetics.

TRANSLUCENT FULL-BODY RANGE

Ultra-white base combined with all the features of the FULL-BODY range. Exceptional light diffusion mimics the soft glow of jade—when backlit, it reveals an ethereal halo effect while maintaining the natural layered structure of the stone.

■ Features

■ Applications

Application	Island	Benchtop	Floor and Wall
Recommended thickness	12-20mm	12-20mm	6-20mm
