

ABOUT US

For nearly 30 years, Yokor Windows has been a leading manufacturer and supplier of premium aluminum windows and doors, setting industry standards for innovation, design and quality. All our products are custom-designed and made, offering the ultimate in style, flexibility and performance that builders, architects, and homeowners desire.

Yokor Windows owns and operates six professional production lines in Australia and China, designing, engineering, and adapting our European system based products to excel in various climatic conditions around the world. Yokor Windows supplies not only window and door products but also a wide range of aluminum solutions, including battens, shrouds, privacy screens, and balustrades to our valued clients globally, with thousands of successful projects completed in Australia alone.

We understand that thoughtful product design, solid quality, and exceptional service are what our clients value most. With over 30 years of reputable experience, we can expertly guide you through the entire process, from concept to completion, ensuring that the products we deliver exceed your expectations.

YOKOR WINDOWS

WHY CHOOSE US

01 WE MAKE DREAMS BECOME REALITY

At Yokor Windows, every project is architecturally inspired and custom-made to meet your exact needs, delivering innovatively designed products with superior functionality. Empowered by a self-owned factory and having a specialized research and development team, we allow the boldest of visions to be met.

02 COMPLETE RANGE MEANS NO NEED FOR COMPROMISE

Your dream home should reflect your unique tastes, and that's why Yokor should be your first choice! With a complete range of profiles and aluminium products on offer, Yokor has options for all types of project styles, customisable to your exact needs. We offer a one-stop solution and ensures that you won't need to compromise in transforming your dream home into reality.

03 QUALITY AND PERFORMANCE ARE ALWAYS ENSURED

As a premium manufacturer, we source quality materials from our carefully selected suppliers, allowing us to offer products that provide optimum comfort and a seamless connection to the outdoor world. Our attention to minor details and thoughtful product designs all ensure our products are high performing and of premium and solid quality - a product that is assured to last.

04 ENERGY EFFICIENCY IS A BASIC CHARACTERISTIC

At Yokor, our products combine thermally improved or thermally broken profiles and argon-filled double glazing for enhanced thermal performance. Tinted glass, Low-E coating and other glass options are also on offer to suit various climates. Our exceptional double-sealing system minimizes air infiltration and boosts acoustic performance, while our passive window system sets a new standard for energy efficiency worldwide.

05 PROFESSIONAL SERVICE GUARANTEES YOUR SATISFACTION

Service is at the heart of Yokor Windows. We are committed to building long-term relationships based on client satisfaction and integrity. Our specialist team will guide you through the entire customization and design process, from inspiration to installation. We promise 24-hour response times and guarantee lead times. Professional installation is also on offer in most locations for added convenience.
